AS TO TABLE VIANDS.

Weather is Adverse to Trade in Market Basket Materials.

SUPPLY OF GAME IS ABOVE DEMAND

Fair Supply of Salmon and Herring, but White Fish Scarce.

A QUIET WEEK IN PLORAL LINES

OFFICE OF PITTSBURG DISPATCH, FRIDAY, November 22, 1889.

Market-basket materials are little changed in price from rates of last Saturday. The weather has been unfavorable to trade all along the line. Country people find it next to impossible to get their stuff to market, owing to bottomless roads.

Choice butter is very firm, and the drift is toward higher prices. Fresh country eggs are scarce and firm at higher figures than last Saturday. Soft weather has been adverse to game and poultry, which show downward ten-dencies. Supply is large, and the only salvation for shippers is a few days of crisp, frosty

Gobblers Are Gobbled.

Dealers predict a scarcity and higher prices for Thanksgiving turkeys next week, owing to the deplorable condition of the country roads. There is little doubt that we could give thanks over a cheaper turkey this week than we will be able to do at the legally appointed time for gratitude. In fruit and vegetable lines there are no changes. Tomatoes are still in good supply at old rates. Grapes are practically at an end for this sea-

son, and another week will undoubtedly finish their career.

Out of the Depths. At the fish stalls it was learned that the supply of white fish falls far below the demand. Salmon, trout and herring are in fair supply, but there is no excess. In the next ten days frozen fish will put in their appearance, accord-

ing to former experience.

The oyster supply is limited and standard grades must soon advance. There is now little or no margin of profit to dealers. Low grades, or what are called down the bay snaps, are

or what are cauch work plenty and weak. Plorists complain of weather. The first hyacinths of the season put in their appearance this week. Violets mee and fresh are also ance this week. noe the week. Violete fire and areas are also in the stalk. Chrysanthemums are still in pleudid shape, but their day will soon be over. Following are retail prices of market basket naterials as furnished by leading dealers:

Ments. The best cuts of tenderloin steak range from 20 to 25c, with last figure for very fancy; sirloin, best cuts, from 15 to 18c; standing rib roast, from 15 to 20c; chuck roast, 10 to 12c; best round steaks, 15c; boiling loast. 10 to 12c; best round steaks, 15c; boiling beef, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25c apiece; corned beef from 5 to 10c per pound. Veal for stewing commands 10c; roast, 12½ to 15c; callets, 20c per pound; spring lambe, fore quarter, 10 to 12c; hind quarters, 15c. A leg of mutton, hind quarter, of prime quality, brings 12½c; fore quarter, 8c; loin of mutton, 15c; giblets, 5c per pound.

Vegetables and Fruit.

Potatoes, 15c per half peck; Jersey sweet potatoes, 25c per half peck; tomatoes, 40c per half peck; cabbage, 5 to 10c; bananas, 20 to 25c a dozen; carrots, 5c a bunch; lemons, 25 to 35c per dozen; oranges, 35@50c; lettuce, 5c per to see per dozen; oranges, 30g;30c; lettuce, se per bunch, 6 for 25c; radishes, 5c per bunch; beets, 8 for 10c; cauliflowers, 15 to 50c a head; string beans, 35c a half peck; onlons, 20 to 35c a half peck; Spanish onlons, 5 to 10c each; pie pumpkins, 10 to 25c, according to size; Catawha, 10c; Concord grapes, 10c per pound; turnips, 20c per half peck; cranber-ries, 15c a quart.

Butter, Eggs and Poultry. Choice creamery butter, 35c. Good country butter, 35c. Fancy pound rolls, 40c.

The retail price for fresh country eggs is 40c. The range for dressed chickens is 50c to 1 00 per pair. Turkeys, 18c per pound. Prairie chickens, \$1 00 a pair: ducks, \$1 00 to \$1 25 per poir: reed birds, \$1 00 per dozen: jacksnipes, \$2 25 per dozen; partridges, \$6 a dozen: squirreis, 40c a pair; plevers, \$2 25 a dozen; rabbits. 40c a pair; pheesants, \$1 25 a pair; pigeons, 50c a pair; geese, 75c to \$1 25 apiece. Fish in Season.

Following are the articles in this line on the stalls, with prices: Lake salmon, 1234c; California salmon, 40c per pound; white fish, 125/c; herring, 4 pounds for 25c; red snappers, 15 to 20c per pound; Spanish mackerel, 30c to 35c a pound; sea salmon, 40c a pound; bine fish, 25 to 30c; perch, 10c; halibut, 20c; rock hass, 30c; black bass, 20c; lake trout, 125/c; rock mass, see: hack duss, see: hack trout, 125c; lebsters, 25c; green sea turtle, 28c; mackerel, 25c small, 40c large. Oysters: N. Y. counts, \$1.75 per gallon; clams, \$1.25 per gallon; seel-lops, 50c a quart; frogs, \$2.00 per dozen; seft shell crabs, 75c per dozen; devil crabs, 85c

Flowers. La France roses, \$1 25@1 50 per dozen; Bride roses, \$1 25 per dozen; Perles, \$1 00 per dozen; Niphetos, \$1 00 per dozen; Bennetts, \$1 50 Niphetos, 21 00 per dozen; Bennetts, 21 00 per dozen; American Beauty, 25c apiece; Mermeta, 25 per dozen; carnations, 50c a dozen; Maiden Hair fern, 50c per doz. fronds; gladiolus, 50c per dozen; illy of the valley, 25 per dozen; chrysanthemums, 50c to 28 a dozen; violets, chrysanthemums, see to the state of the stat

BUSINESS NOTES.

THE Bank of Pittsburg yesterday mailed a number of checks for dividends due to outside stockholders. THE McKee's Rocks Coke Company and the

Southside Publishing Company were chartered at Harrisburg yesterday. THE largest of 27 mortgages recorded yesterday was for \$25,000, placed by Isabel C. Gargent with the Germania Savings Bank.

MESSES. HUSSEY, BINNS & Co., the well-

known shovel manufacturers, will remove their plant to Jeannette some time next summer. The plans for the new building have been pre-PLANS for several fine dwellings and three unsiness houses, to be erected in Wilkinsburg, are being prepared by city architects. Work on them will begin as soon as the weather will

A COMPANY of Washington, Pa., capitalists recently examined the Tiltonville pottery, at Tiltonville, O., with a view to purchase. They expect to use the plant as a nucleus for a large

glass factory. E. G. HAYS, C. E. Ellsbree, H. P. Eckert, B. P. Wallace and W. H. Gardner have applied for a charter for the Pennsylvania Honting Company, the character and object of which is manufacturing, selling, renting and dealing in

pianos and organs. THE contract for the bridge over the Kaw river at Kansas City, Mo., has been awarded to the Youngstown Bridge Company, of Youngs-town, at \$51,050. The bridge proper will be 775 feet long, with approaches, making the full length of the entire structure 975 feet.

H. K. PORTER & Co., builders of light locomotives, have just shipped a 19-ton shifting engine to the United States navy yard at Washington, D. C., and noiseless steam motors to San Francisco, Cal., and Anniston, Ala., and are building similar motors for Tacoma, Wash., and Elmira, N. Y.

"WHAT will be the effect of the bank failure upon real estate in that part of the city?" a apon rear ceated in the process of the courty? a Fourth avenue agent was asked yesterday. "Good, entirely good, I think," was his reply. "It will cause many people to buy lands and houses who would not have done so but for the failure. Real estate never runs away."

GENERAL W. S. ROSECRANS, Register of the Treasury, in his annual report shows that dur-ing the year 21,500 bonds, amounting to \$103. ang the year 24,000 books, amounting to \$103,-894,350, were issued and 85,149 bonds represent-ing \$231,511,450 were canceled. The total amount of bonds outstanding is \$702,328,812, of which amount only \$10,362,850, or 2.36 per cent are held abroad.

Joseph Binck's cigar store, 143 Chestnut street, Allegheny, was robbed of a quantity of tobies after midnight on Thursday. Mr. Rinck's less will be from \$10 to \$15. The thieves broke a shutter and then pried open a cunboard with a poker.

MARIE LANE visits the Chinese Quarter in San Francisco, and records her observations in tomorrow's DISPATCH.

SCARCELY A RIPPLE

Caused in Business Circles by Failure of the Lawrence Bank.

SPECULATIVE INTEREST

May be Pinched, but Nothing Else Will Experience the Least Trouble.

NEW ENTERPRISE AT WILKINSBURG

The Lawrence Bank failure was a fruitful source of conversation in business circles yesterday. While the event was deplored as a misfortune to the people directly affected, there was nothing in it, so far as could be seen, to cause apprehensions of outside complications. A financier remarked that the worst be could see was the possibility of the people becoming frightened and making runs on other banks, but this was too improbable to be seriously thought of.

One of the oldest bank cashiers in the city had this to say: "The failure will no doubt be a serious blow to Lawrenceville, but it will scarcely be felt beyond. No other local finan-cial institution is in any way involved, but if any were, it would hardly cause a ripple on the surface. We passed sately through the Johnstown calamity, which wiped out millions, and to even think of being floored by the failure of a little private bank is preposterous. The city is so prosperous that the affair will be forgotten, except by the sufferers, in a week. All that is necessary to enable us to come out with flying colors is for every one to keep cool and go about his business as if nothing out of the

usual had happened."

The failure was extensively discussed on 'Change, and while no lasting injury to the speculative interest was expected to result from it, the opinion was very generally expressed that it would serve to make investors more cautious, and in this way restrict business in stocks and oil until the scare wore off.

Wilkinsburg is coming to the front as an industrial center. The National Electric Com-pany, just organized, will locate there, having made arrangements for the erection of a build-ing, to be used as a factory, on Wood street, which will be completed within five or six weeks. The company will manufacture speaking tubes, buttons, annunciators and other electrical appliances used in dwellings, stores and offices. Mr. George Webber, of Allegheny City, is President, and Mr. A. C. Frey Secretary. Mr. Frey is the owner of several patents which will be used by the company. The working capital is \$10,000, and 25 men and boys will

be employed.

An electric light company has been chartered. and there is a movement to establish a large planing mill. A bank and a hotel are among the probabilities of next year.

Here is an opening for some enterprising Pittsburger. The Webster Standard, published at Marshfield, Mo., says that from indications recently developed in several water wells drilled there within the past three months, it seems more than probable that Marshfield and vicinity are underlaid with an oil bearing strata. In one well, at a depth of 77 feet, oil was found in such quantities as to cover the bucket and vessels in which it was emptied, so as to render them unfit for domestic use. The Standard further says: "Some action should be taken toward raising a fund to put down a test well, or to induce capital to do so. We shall be glad to correspond with any parties interested, as we firmly believe that such a test would prove that we have most wonderful undeveloped resources."

The Avonmore Land and Improvement Company has purchased 854 acres of land in the "loop" in Bell township, near Greensburg. A charter for the company has been applied for. The incorporators are Messrs. Schuyler, Patterson, Simms and Bright, of Philadelphia, The principal office of the company will be in that city. It is expected that a large locomo-tive works and a town will be built on the site. The land has a river front of three miles.

In regard to the Glasgow iron market, a recent letter from there contains the following: "As I predicted, the effect of the orders to Glasgow brokers from speculative buyers in the South was to cause an increase on Tuesday last from 58s. 4d. to 60s. 41/d. cash.in the price of Scotch iron. As there are always plenty of timid operators, there was on the following day a considerable amount of selling done and the result was that values fell to 58s, 11d., but afterward recovered to 59s. 3d. Since then they have fallen again, and prices closed on

Thursday between 56s, and 57s. "There is no doubt that this result is purely temporary, due to the influences of the timorous selling policy to which I have referred. Notwithstanding this serious fall, Scotch warrants still close the week with an advance of is per ton. The brokers in Glasgow to a man believe that warrants will be los, per ton dearer before they begin to relapse. They find ground for this hopefulness in the fact that stocks are still decreasing at the rate of about 4,000 tons weekly, and that the manufactured iron and steel makers are about as busy as they can possibly be."

A British consular report states that the import of coal from the United States to the port of Havana amounted to 97,447 tons in 1888 as against 53,255 tons in 1887, and that from Great Britain to 50,378 tons as against 74,843. Thus, the American import exceeded the average of the last ten years, which is calculated at about 66,000 tons, and was larger than that of any year during the same period, while the import from Great Britain fell far short of its average of 80,000 tons, and is the smallest recorded in the same decade. That a further alteration in the relative proportions of the coal imports from Great Britain and the United States may

take place is not improbable. Commenting upon this the American Manu-facturer remarks: "We doubt if a better investment of the capital of Pittsburg and other cities in the valley of the Mississippi could be made than in a large shippard on the Gulf, in the market the construction and sailing of the ships there built would give all the products, manufactured and natural, of the valley."

Pittsburg is so largely interested in the introduction and development of rapid transit that anything new upon the subject possesse more than ordinary interest. A company is forming at Indianapolis in which President J. C. Shaffer, of the local street railway company, is said to be interested, to introduce into In-diana the Judson motor for street railways, The principle of the revolving screw in a modi-ned form is used in propelling the car. In the middle of the track and extending the entire length of the line is a revolving shaft or drum eight inches in diameter. This is to be driven by compressed air applied at stations along the line. Small wheels attached to the car are pressed upon the revolving drum. The speed of the car and the direction are regulated by the angle at which these small wheels impinge

upon the drum. It is asserted by the men who control the invention that the roads can be built and equipped for less than half the cost of cable car lines and that the speed can be instantly and accurately regulated up to 22 miles an

According to a German paper, a Dresden firm has introduced glass pipes for the transmission of water. They are made sufficiently thick to withstand the pressure, and, for the prevention of breakage as far as that may be possible, they are covered with asphalt, which in time is bestrewn on the outer surface, into fine sand. These pipes are designed to take the place of lay, bad iron and other water pipes. It is claimed for them that they completely with-stand the moisture of the earth in which they are laid, that they are not affected by acids and alkalis, do not absorb gases, and offer no opportunity for the adherence of any sedime that may be in the water.

THE FEELING IN STOCKS.

Brokers Walting Until the Clouds Rell by -Gas Shares Weak. The only cheerful feature of the sto

ket yesterday, was the strength of local rail-road shares. The good condition of the roads, and their large earnings are bringing these stocks into prominence as investments. The

natural gas sharet were all weak, except Bridgewater, which was bid up to 82%. Phila-delphia opened with sales at 31, and closed at

30% with 31 asked. There was very little disposition on the part There was very little disposition on the part of the brokers to push things. One or them said, "Scarcity of funds for speculation, added to the bank failure, has taken the life out of the market. What little was done to-day was on urgent orders. There will be a luli, I think, until the full extent of the bank failure is known. Speculation is dangerous at best, and no one who knows anything about it is willing to operate with a cloud on the financial horizon."

Sales at both calls were 354 shares. The business in detail is appended.

100 Electric at 49 and 50 Pleasant Valley at 22½.

Robinson Bros. sold \$10,000 Panhandle Railway 7s at 118½, and \$3,000 Equitable mortgage bonds at par and interest.

The total sales of stocks at New York yesterday were 297,317 shares, including: Atchison, 19,730; Delaware, Lackawanna and Western, 6,830; Denver, Texas and Ft. Worth, 7,204; Louisville and Nashville, 8,230; Missouri Pacific, 4,830; Northern Pacific, preferred, 16,652; Oregon Transcontinental, 6,562; Reading, 22,900; Richmond and West Polis, 3,349; St. Faul, 15,865; Union Pacific, 22,925.

NO PINCH HERE.

Plenty of Cash to Keep the Wheels of

Business in Motion. There was a good degree of activity in the local money market yesterday, applications for loans being rather more numerous and pressing than usual, and rates firm at 6@7 per cent. While funds for ordinary purposes were by no means tight, some discrimination was made in favor of regular customers, outsiders being subjected to some delay, while their collateral was undergoing examination.

The great expansion of business within the

The great expansion of business within suc-last three or four months has absorbed much of the idle capital, of which complaint was made early in the season, and rendered neces-sary a more conservative policy in regard to making leans; but there is no lack of funds for regular business, and this should be kept in mind in the midst of many conflicting and sen-sational reports.

mind in the midst of many conflicting and sen-sational reports.

The Clearing House report was better than the weather, showing that general trade con-tinues active and healthy. The exchanges were \$2,091,506 06 and the balances \$225.472 10.

Money on call at New York yesterday was tight, ranging from 5 to 12 per cent, last loan 8, closed offered at 8. Prime mercantile paper, 5\(\text{2675}\). Sterling exchange quiet and steady at \$4.80\(\text{2675}\) for 60-day bills and \$4.85 for demand.

The iron market was entirely featureless all day yesterday until just before the close, when the impression got abroad that the market was oversold and the shorts started in to cover. This was just what the bulls had been waiting for, and they quickly forced the price up to the highest point of the day. The market opened highest point of the day. The market opened at \$1 09: highest, \$1 09½: lowest, \$1 089½: closing, \$1 099½: Trading was light. Thursday's clearances were 948,000 barrels.

While the conditions are undeniably bullish, the prospect of a material advance is not as good as it might be. If there should be a drop in refined, or if exports should fall off materially, as they probably will after January, the Standard will want cheaper oil, and what it wants it usually gets, whether it be a Legislature or a pipe line. This view is held by several of the most experienced local operators.

Corrected daily by John M. Oakiey & Co., 45 Sixth street, members of the Pittsburg Petro-leum Exchange.

Samuel W. Black & Co. sold lot No. 37, Forward avenue, Twenty-second ward, size 22x120 feet, with small frame house, for \$430 cash.

Do Nearly All the Business in Railway Shares-Trusts Prove to be Good Stayers - Rock Island and

BEARS AND TRADERS

Atchison Combine. NEW YORK, November 22.—There was renewed interest in the Trusts to-day, and the stock market was less active for the regular list, but the unlisted department showed a marked increase in the amount of business done. The temper of the speculation was alternately weak and strong within narrow limits, the general drift of prices being down-ward during the forenoon and upward for the remainder of the day. There was a great dis-inclination to trade, and the active work in the market was done almost entirely by the bears and traders. The news of the day was unimportant, except for the announcement of some arrangement between the Rock Island and the Atchison, supposed to be similar to that between the Northwestern and the Union Pacific, though the exact nature of the deal is still a

tween the Northwestern and the Union Pacific, though the exact nature of the deal is still a matter of speculation.

The bears made considerable effort to get the prices of the Coalers, the Trusts and the Southern stocks down; the only weak spot uncovered was Wheeling and Lake Erie, which dropped over sper cent on selling orders said to be for Boston account and induced by a rumor of a further issue of preferred stock. The manipalation of the Trusts was not confined to one side but efforts were made to lift as well as to depress them, and the bears gave it up toward the close, when a marked upward movement took place in all of them. Lead was sold on reports that the Trust would also be converted into a corporation with a reduced capital. The alliance between Rock Island and Atchison did not seem to have much effect upon Rock Island after the opening, but Atchison was strong, especially in the afternoon, and scored a material advance on a moderate volume of business. The deal also had a rather depressing influence upon Union Pacific, but that stock fluctuated within narrow limits, and its final change is insignificant, Denver, Texas and Ft. Worth pursuing the same course.

The Chicago people were buyers of the North-

only important decline, losing 2% per cent, while Cotton Oil is up 1% Sugar 1% and Chicago Gas 1%.

Railroad bonds were quiet, and the sales of all issues reached only \$1,221,000, which was well distributed. The market was stronger than it has been for some time, however, and many bonds show improvement to night. Lake Erie and Western lats, rose 2 to 113; Shenandoah Valley lats, receipts, 3% to 104, and Atlantic and Pacific incomes 2 to 15%.

The Post's financial article says: In the afternoon the report that some kind of an alliance had been made between the Rock Island and the Atchison was confirmed, but it was generally conceded that in view of the fact that the Atchison has a line of its own from Atchison to Chicago, and which is a parallel company with the Rock Island line from Chicago to Leavenworth, it could not be any such compact as was made between the Union Pacific and the Northwestern, and in all probability amounts only to giving the Rock Island the privilege of running through trains from Chicago to the Pacific coast. Nevertheless it is another instance of the leading idea of the present time, which is to unify the management of the railroads without consolidating the corporations or the property.

CHOICE BUTTER CONTINUES FIRM.

dency---Flour Steady. SUGAR AND COFFEE STILL STRONG

Oats, Hay and Corn Show an Upward Ten-

OFFICE OF PITTSBURG DISPATCE, FRIDAY, November 22, 1889. Country Produce-Jobbing Prices.

Continuous wet weather and, as a consequence, bottomless country roads have had a depressing influence on produce trade. Choice creamery and country butter are firm at quotations. The same is true of good eggs. Poultry and game are in large supply, and drift of markets is toward lawer prices. Grapes are prackets is toward lower prices. Grapes are practically at an end for this season. Apples are slow except for very choice stock. The potato situation is unchanged. Markets are dull. Sweet potatoes are very firm. Choice eggs are firm enough to go up higher upon the first ap-pearance of cold weather. Tropical fruits are

Grain, Flour and Feed Grain, Flour and Feed.

Total receipts as bulletined at the Grain Exchange, 24 cars. By Pittsburg, Ft. Wayne and Chicago, 1 car of wheat, 4 of nay, 1 of barley, 1 of feed, 2 of corn, 1 of flour, 2 of cats. By Pittsburg, Cincinnati and St. Louis, 1 car of oats, 1 of corn. By Baltimore and Ohio, 1 car of four, 2 of cats, 2 of hay. By Pittsburg and Western, 2 cars of hay, 1 of buckwheat. By Pittsburg and Lake Erie, 1 car of hay. There was but one sale on call, namely, a car of No. 2 yellow shelled corn, 624c, 10 days, P. R. R. Oats and one sale on call, namely, a car of No. 2 yellow shelled corn, £5/c, 10 days, P. R. R. Oats and choice hay show upward tendencies. Cornalso is very firm. Wheat is off at Chicago, but flour is firmly held here at quotations. Receipts of grain and hay are steadily on the decline the past week, and the effect is seen in a healthy tone to markets.

Prices below are for carload lots on track.
